

# ADVENTURES IN MARINE- AND ESTUARY-RELATED CAREERS: A GTM RESEARCH RESERVE SUMMER CAMP

## WHO

Students entering 9<sup>th</sup> – 12<sup>th</sup> Grade

## WHERE

The Guana Tolomato Matanzas  
National Estuarine Research Reserve  
Marineland Office  
9741 Oceanshore Boulevard  
St. Augustine, Florida 32080

## WHEN

July 23 – 27 (9am – 3pm)

## WHAT

Students will get a hands-on adventure in marine- and estuary- related careers. In addition to understanding the intricacies relevant to the estuarine and coastal habitat through hands-on, in-the-field experiences, students will be exposed to a multitude of careers. We are excited for the opportunity to utilize our southern Marineland component to tap into some great resources including, but not limited to: Marineland Dolphin Adventures, the Whitney Laboratory for Marine Bioscience and Ripple Effects Eco Tours. Similar to our younger camps on Mondays they will choose a topic to become an expert on, and by Friday will present on that topic to parents, fellow campers and GTM staff at our closing ceremony. The exciting part of the presentation is that students get to be completely creative regarding their presentation.

THE SKY'S THE LIMIT

## HOW MUCH: \$130

Includes: Ripple Effects  
Eco-tours Kayak trip;  
Marineland Dolphin  
Experience; and Whitney  
Lab investigation
